

SOCIAL & RECREATIONAL

Section 3.8 of the Otter Lake Sustainable Lake Plan deals with Social & Recreational objectives such as boating, noise & light pollution and sense of community.

Goals – A sense of community, active lake stewardship and respectful behaviour will be encouraged.

OLLA has established a Social Committee which organized the first annual Family Day Picnic on June 7, 2015 at Camp Otterdale. This social event provides opportunities to meet fellow landowners in a fun and informal setting, as well as access to OLLA Directors, Lake Plan Committee members and to raise money for the Send-A-Kid-To-Camp Fund. Other social events could be considered in the future.

The intention of the Social & Recreational objectives is to provide educational information in the form of “did you know” facts to promote a good neighbour approach to ensure courtesy, safety and security for everyone who lives and plays on Otter Lake.

Four objectives are set out in Section 3.8 of the Lake Plan with a total of 12 action items identified. The status of the action items can be found in the Summary of Action Items document (link on main Lake Plan page).
